The Neosho Nurseries Co., Neosho, Mo.
Richared Delicious Apples are a distinct variation, possessing all the good qualities of flavor, texture, size and shape of the popular Delicious, to which is added a rich, solid, double-red color which greatly increases its attractiveness and market value.

The Richared is solid red and is not striped like the ordinary Delicious. Practically all apples on Richared trees "color extra fancy". The Richared colors early and is a rich red before it ripens and, fully two weeks ahead of the common Delicious, is ready to be picked and go to the highest market.

On account of being able to pick early, while the apples are a hard ripe, the Richared is a long keeper and may be kept in cold storage until the following summer.

More extra fancy grade—early picking—firmer apples—no loss from windfalls—and long storage are the profit features of this variety. Richared Delicious is now bearing on third generation trees and they are identical with the parent tree.
